On September 11, the people of the United States witness the most horrific terrorist attack in history as hijacked planes bring down the World Trade Center, crash into the Pentagon and crash in a field in Pennsylvania. Thousands of lives are lost in the tragedy, but a new era of patriotism emerges from the ashes.

DEDICATION 2002

CAROLYN HICKMAN

There is never a dull moment in Mrs. Hickman's class. Whether she brings in her country music to give the class a "taste" of the South, or exuberantly pronounces a word like "lugubrious" in hopes that everyone else will appreciate the intriguing sound as much as she does, she never fails to impart her enthusiasm.

Her passion for teaching is by no means her only asset. Carolyn empathizes with her students and is always willing to offer her advice on any subject. She came to Rowland Hall - St. Marks five years ago and has left her mark on every student she has taught. Anybody who has had her class will remember her soft Southern accent and zest for teaching.

She has aided the RHSM community in more than a purely academic sense; she coached the cross country team and has also served on the academic ethics committee.

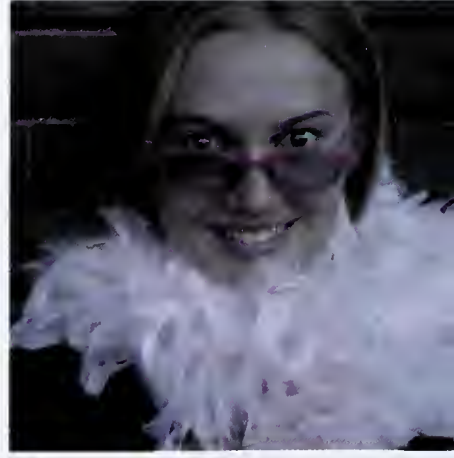

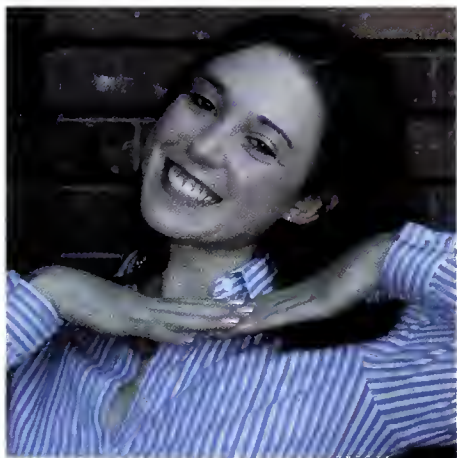

Her unique personality is indelible in the minds of her students. As she likes to tell her AP class, "the past is never past." The 2002 yearbook staff is pleased to dedicate "Route 2002" to a teacher who relentlessly strives to make her students excel both in and out of the classroom. Congratulations, Dr. Carolyn Hickman.

The 2002 Sophomores are a diverse group. We are made up of the big and the small, the loud and the quiet, the athletes and the Einsteins, and we all will help the world in our own way.

In our second year of private high school, we have developed more than enough knowledge to give anybody a headache. We do this while having some of the most extraordinary fun of our lives. Now as we enter the hardest grade of high school, we can't help but look forward and wonder.

TENNIS

The girls tennis season this year was once again very successful. The team went undefeated throughout the season, even beating teams in higher divisions. The state tournament proved to be yet another success, as the team won state before final matches were even played! An amazing aspect of the tennis season was that there were a mere 3 seniors on the team, which meant a lot of pressure on those girls and the need for a strong performance by the underclassmen. "Our coaches were even skeptical we would place in state!", exclaims an excited student. In addition to the winning record of the Rowland Hall- St. Mark's tennis team the best part of the season, notes departing senior Vanessa Clayton, "was how much fun we had!"

Captain Brandon Rassmusson shows his manly muscle. However, it is his talent and tenacity that make him a perfect leader for this team. Regardless of the circumstances, he always plays with distinction and determination. Although he plays nearly all four quarters, he is equally energetic on his first slam dunk and his last three point shot.

Captain Ryan Olson is a serious competitor. He supports the team with an unpretentious power that permeates the plays of the game. He is both an amazing defensive and offensive player, snagging innumerable rebounds and sinking several three point shots. He accepts and excels at his role on the team, and leads them to victory with composure and boundless resolution.

Left: Paul Long lingers after a shot that is nothing but net.

COMMUNITY SERVICE

Raggs Ragan, without whom, Community Service at Rowland Hall would not be possible.

Community Service Council: Raggs Ragan, Lindsey North, Allison Cartwright, Deborah Hobden, Kathleen Callaghan, Kimberly Dunn, Rose Maizner, Tara Seethaler, Erica Trauba, Robyn Payne, and Kevin Marshall.

Community Service at the Upper School

Many Upper School students are involved in diverse service activities in their neighborhoods, churches, political organizations, etc. RHSM language clubs all do service projects, some for local homeless and hungry people and some for international needs, such as helping African girls attend school. Specific service organizations at the Upper School are the National Honor Society and the Community Service Council. NHS involves more than sixty sophomores, juniors and seniors, who must maintain Honor Roll grades and perform a required amount of service each term. NHS members do several group projects each trimester, such as Spring and Fall Adopt-a-Block and work with the Utah Food Bank, Ronald McDonald House, Strut Your Mutt, the local Head Start, and the Crossroads Urban Center holiday give-aways. The Community Service Council consists of any Upper School students who simply want to do more to help the community. They regularly help organize the Upper School portion of our annual drives for food, clothing, and kitchen supplies, as well as our major Navajo Santa collection, which provides needed supplies and gifts to the Navajo people of San Juan County. Community Service Council also provides volunteers to Kids' Café (which feeds area school children), Habitat for Humanity, LifeCare (which provides elderly and disabled people with the help they need to remain in their homes) and hospital programs, among others.

-Raggs Ragan

NAVAJO SANTA

Ya'at'eeh Keshmish (Merry Christmas), also known as Navajo Santa, is a non-profit organization that supplies food, blankets, warm clothes., toys, and other necessities to the Navajos in need on the reservations in southeastern Utah. Navajos in this region have been one of the poorest and most neglected groups in the United States. Many lack even the basic services such as running water and electricity.

MULTICULTURAL CLUB

The goal of the Rowland Hall - St. Marks' Multicultural Student Union (MSU) is to recognize, celebrate, and educate our students of the diversity that exists in both our school and the greater Salt Lake community. We plan to achieve this goal through celebrating holidays of different religions and bringing in food from different ethnic communities to increase our awareness of the diversity abounding in our own surroundings. We also plan on bringing in keynote speakers from different religious and ethnic backgrounds to present to the entire student body aspects of their cultural and some of the current issues they face as minorities. From these speeches, the MSU will create member-generated presentations to educate the younger students in the Middle School, thereby expanding the information throughout our school.

DIRECTORS

Sarah Lappe and Kristin Bailey, the collaborating directors of this variety show, have a special place in their lives and hearts for the theatre. A fall musical and spring play were not enough this year, so they took it upon themselves to create one more acting opportunity. The free and liberal enviroment at Rowland Hall allowed us to make their idea into a real production. All the actors have come togehter for the greatest reward, which is performing.

Love is confusing, mystifying, overrated, underrated, good, bad, and sometimes perfect. The scenes that the players portray exemplify the dark and light sides of love, which shows how twisted love can be.

To laugh often and much;
to win the respect

to earn the appreciation
of honest critics
and endure the betrayal
of false friends.
To appreciate beauty;
to find the best in others;
to leave the world

even one life has
breathed easier
because you have lived.
This is to have succeeded.

Chas: When you were born, I thought that I could never be more proud — I was wrong. Who knew that 18 years later my pride would have increased 18-fold? Each year brings a new dimension to that pride.
